### 8. Round to the Swiss Championship in the SAM from Emmental/Bern

*Three wins in the “Woman” class as well as winning the time practice in the class „Juniors/Open“!*

Birgit was in a very good condition, able to finish four times on the fast track in Emmental/Bern, Switzerland. Saturday morning, she was on second position in the time practice in a class with 48 male and female participants.

Winning all three motos by leading the first in front of the men as well, she was more than happy about this result.

We would like to thank the company Bridgestone very much because of the excellent result of “Mousse” inner tube. We have been positive surprised about the perfect grip of the tires!
